What is this product and how does it work?

Currency Linked Investment is a structured product that involves currency option (derivatives) where you can enjoy interest derived from the currency option premium, offering you higher interest returns.

On Transaction Date, you need to select the investment currency, linked currency, investment duration, conversion rate and investment amount, and agree the interest rate with the Bank. The investment amount will be frozen at your settlement account on Transaction Date, and deducted on trade settlement date.

On Fixing Date the Bank will determine, with reference to the exchange rate at Hong Kong Time 2:00 pm (“Fixing Rate”), whether maturity amount will be paid in investment currency or linked currency on Maturity Date by comparing the Conversion Rate and Fixing Rate:

- (i) If linked currency appreciates or remains the same against the investment currency, maturity amount will be paid in investment currency;
- (ii) If linked currency depreciates against the investment currency, maturity amount will be paid in linked currency.

On Maturity Date (generally it will be the same to Fixing Date), the maturity amount (equal to the sum of investment amount and the enhanced interest) will be paid. If settlement is disrupted for any reason beyond the Bank’s control (including, without limitation, typhoon, black rainstorm or otherwise), payment will be made as soon as the disruption ceases to exist and payment can be effected. No interest will be payable in respect of any postponement described above.

Return Example

Scenarios	Fixing Rate	Conversion Rate	Maturity Amount	Net Gain / Loss	Return Rate (% p.a.)
Scenario 1 Best case scenario AUD strengthens against HKD or remains unchanged	6.9000	6.8600	HKD101,185.32 [#]	HKD 1,185.32	Gain 13.52%
Scenario 2 Breakeven AUD weakens against HKD	6.7796	6.8600	AUD14,750.05* (HKD100,000.00 equivalent [^])	HKD 0.00	Breakeven 0.00%
Scenario 3 Worst case scenario AUD becomes valueless	0.0000	6.8600	AUD14,750.05* (HKD 0.00 equivalent [^])	-HKD 100,000.00	Total Loss
Scenario 4 The Bank becomes insolvent or defaults on its obligations	Assuming that the Bank becomes insolvent during the tenor of this product or defaults on its obligations under this product, you can only claim as its unsecured creditor. You may get nothing back and suffer a total loss of your investment amount.				

[#] Investment amount + (investment amount X interest rate X investment duration / day count basis)
 = HKD100,000 + (HKD100,000 X 13.52% X 32 days / 365 days)
 = HKD 101,185.32

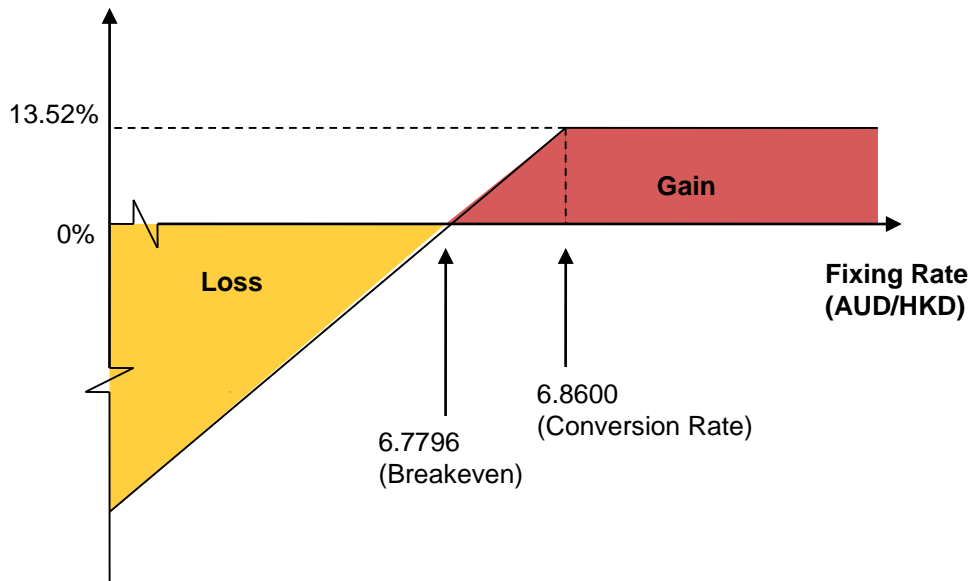

* [Investment amount + (investment amount X interest rate X investment duration / day count basis)] / conversion rate
 = [HKD100,000 + (HKD100,000 X 13.52% X 32 days / 365 days)] / 6.8600
 = AUD14,750.05

[^] HKD equivalent = maturity amount X fixing rate

What are the Key Risks?

You should read and understand the nature of all the risks before deciding whether to invest in this product.

Not a time deposit

This product is NOT equivalent to, nor should it be treated as a substitute for, time deposit. It is NOT a protected deposit and is NOT protected by the Deposit Protection Scheme in Hong Kong.

Full downside risk (NOT principal-protected)

This product is not principal protected. The return in relation to this product is subject to market conditions and the performance of the underlying instrument. Fluctuations in prices of underlying instrument can be substantial and past performance is not necessarily a guide to future performance. You could lose all of your investment amount.

Derivatives risk

This product is a derivative product which involves risks. You may suffer substantial loss in the event of an adverse movement in the relevant underlying instrument.

Capped maximum potential gain

The maximum potential gain of this product is capped and limited to the pre-determined annualized yield.

Not the same as an investment in underlying instrument

Investing in this product is not the same as investing in underlying instrument(s). During the investment period, you have no right to the underlying instrument(s) under this product.

Secondary market and liquidity risk

This product does not have secondary market and is designed to be held till maturity. You do not have the right to request early termination of this product before maturity.

Credit risk

This product is not secured by any collateral. When you invest in this product, you will be relying on the Bank's creditworthiness. If the Bank becomes insolvent or defaults on its obligations under this product, you can only claim as an unsecured creditor of the Bank. In the worst case, you could suffer a total loss of your investment amount.

Market risk

The return of this product is linked to the market price of underlying instrument(s). Movements in the market price can be unpredictable, sudden and drastic, and affected by complex political and economic factors.

Currency risk

If the investment currency or linked currency is not in your home currency, and you choose to convert it back to your home currency upon maturity, you may make a gain or loss due to exchange rate fluctuations.

Risks relating to RMB

RMB exchange rate and/or interest rate relevant to this product refer to offshore RMB (CNH). You should note that the value of RMB against other foreign currencies fluctuates and will be affected by, amongst other things, the PRC government's control (for example, the PRC government regulates conversion between RMB and foreign currencies), which may adversely affect your return under this product when you convert RMB into your home currency.

Risks of early termination by the Bank/Issuers

The Bank/Issuer has the right (but not the obligation) to terminate this product early upon occurrence of certain events. If this product is terminated by the Bank/Issuer early, you may suffer a substantial loss under this product. See "Can the Bank or Issuer adjust the terms or early terminate this product?" below.

Exposure to the risks associated with the product from the Transaction Date (even though we do not debit your account until the trade settlement date)

When you submit your order, a cash amount equal to the Investment Amount (or our estimate of the Investment Amount) will be frozen in your account. After your order has been executed, you cannot withdraw or cancel your order. You are exposed to the risks associated with this product from the Transaction Date. Given the same Tenor, the longer the time gap between the Transaction Date and the trade settlement date, the longer the period of time you will be exposed to the risks associated with this product. Given the same Tenor, the annualised yield of your potential return on this product calculated from the Transaction Date may be lower than the annualised yield calculated from the trade settlement date.

How can you buy this product?

You can subscribe this product by visiting any of our branches or through mobile banking or by calling us at 2309 5555.

Pre-Investment Cooling Off Period for retail customers

Pre-Investment Cooling-off Period (PICOP) is applicable to each particular dealing of this product if you are one of the following retail customer types:

- (1) An elderly customer aged 65 or above who is a first time buyer of currency linked product (or relevant product type), AND
 - a. his/her asset concentration¹ is 20% or above; or
 - b. his/her asset concentration¹ is below 20% AND the customer does not choose to opt out from PICOP arrangement.
- (2) A non-elderly customer who is a first time buyer of currency linked product (or relevant product type) AND his/her asset concentration¹ is 20% or above.

¹ For the purpose of determining whether PICOP is applicable, asset concentration refers to the percentage of your total net worth

(excluding real estate properties and insurance policies), including those being held in the Bank and in other banks or financial institutions, that is to be invested in this product.

Can the Bank or Issuer adjust the terms or early terminate this product?

The imposition of exchange controls, events of default, force majeure or any other events may trigger adjustment to, or early termination of this product. Such adjustments or early termination events may negatively affect your return or loss under this product.

You can request for early exit, but the acceptance of early exit request is subject to the Bank's discretion. There is penalty for early exit subject to individual transaction. If you request for early exit, the amount received may be far less than the nominal amount of this product.
